

Zahrineh Company

Prooduction and Export of
Scorpion Venom

Introduction

Iran is one of the countries of Southwest Asia (Middle East) with Afghanistan and Pakistan in the east, Turkmenistan in the northeast the Caspian Sea in the middle in the north, the Republic of Azerbaijan and Armenia and Turkey in the northwest, Iraq in the west and finally It is bordered to the south by the waters of the Persian Gulf and the Sea of Oman.

The Islamic Republic of Iran due to its large population, political stability, potential economic resources and most importantly having the largest coast of the Persian Gulf and dominating the strategic Strait of Hormuz and its connection to Central Asia and the Caspian Sea, as a bridge between Asia, Europe and Africa. It is of great geopolitical importance and can take the necessary measures to increase the exchange of goods. Therefore, with more than two thousand kilometers of coastline from the mouth of the Arvand River to the port of Goatherd, in addition to dominating the waterways leading to the Indian Ocean, it is the only country that can transport various export products by land to many parts of the world.

Keep in mind that Iran has been a member of free trade with Eurasia since October 27, 2019, and Eurasia is Iran's new partner. This is an important advantage for Iran because these countries are also consumerist countries and Iran as a producing country can easily export its goods to these countries. Central Asian countries, India Pakistan and Afghanistan are also consumerist countries and most importantly like Iranian goods

These two cases are enough to consider Iran as one of the main suppliers of Scorpion venom in the region. In the meantime, we can mention Iran's good and friendly relations with the CIS countries which will cause economic prosperity in all countries.

Zahrineh

There are also some countries, such as Ukraine and other Eastern European countries, for which buying Iranian goods is not very expensive. In addition, the quality of Iranian goods has been approved by many countries in the region and the world.

Iran's convenient geographical location speeds up the transfer of goods and communication, and this speed and time savings in trade is very valuable. Iran is in the middle of the world. Compared to European countries, we can deliver goods in the fastest time.

Central Asian countries can also easily receive our export goods. This is while a country like China does not have our position, but it has made excellent use of its existing capacities.

So Iran's first advantage in trade with the world is that this land has a strategic position in the Middle East.

Another very important advantage of Iran's exports compared to other countries is the very low cost of labor wages. This teaches us to work for the export of goods in which the wages of the worker (ie manpower) are very low. The more effective this cost is on the cost of that commodity, the more competitive that commodity has in the export market.

One of these goods can be considered the scorpion venom field in Iran. So with these interpretations, we can open a special account on Iran in the purchase and export of scorpion venom.

Zahrineh

ABOUT US :

ZAHRINEH Company, with the aim of producing and selling all kinds of scorpion venom products, which started its activities in the field of domestic market and export with the cooperation of Arad Holding, to expand its activities throughout the cities of Greater Iran, will flourish in the Persian Gulf in neighboring countries and in the global market.

Our products :

Scorpion venom :

Scorpion venom contains proteins that can be used to treat diseases such as rheumatoid arthritis, inflammatory bowel disease and multiple sclerosis. These diseases, which have plagued many people, can be cured at least in part by these scary creatures.

Scorpion venom is the most expensive liquid in the world. Of course it must be said that this liquid is not expensive but very valuable.

The reason for the high value of this substance is its medical applications which are used in the treatment of the most incurable human diseases Among the important diseases that can be treated and controlled with this valuable poison: HIV, cancer, diabetes, rheumatoid arthritis intestinal inflammation, MS and so on.

Scorpio is a creature that is not abundant in the world, so it is a very strategic creature and is considered one of the valuable natural resources Also, not all species of scorpions have valuable venom and only 25 species of scorpions have lethal venom, and of these 25species, only 10 species have medicinal uses and the rest are used only to prepare antidotes.

Services :

- 1-Free consultation to purchase products and quality and other information
- 2-Possibility of immediate shipment to all parts of Iran and export to other countries without any restrictions
- 3-According to the contract, it is one of our obligations and we will not spare any effort in this way to satisfy our customers

Product delivery :

Iran has several sea, air and land borders. Due to the volume of orders priority is given to sending products through land and sea borders. Of course, according to the final destination, our experts will consider the best method and route for the delivery of goods, so according to the volume of the order, the method of sending and delivering cargo may have some changes.

Therefore, the company's priority for exchanging goods by sea is CIF, FOB methods and exporting goods through land borders, FCA and EXW methods. Also, share the method of delivery of your goods with us so that the result will be announced to you after reviewing.

Zahrineh

The background of the slide features a composite image. The upper portion shows a close-up of a scorpion's pincers and legs. The lower portion shows a glass bottle with a single drop of liquid falling from its neck. The entire image is overlaid with a large, curved, yellowish-gold shape that separates the text area on the left from the image on the right.

Payment methods

Due to having multiple foreign currency accounts in the names of different companies and individuals, we offer you a cash deposit method. If you have another method for your payment, inform the relevant expert so that you can be informed of the final opinion if the collection management decisions.
